SUMMARY :

Full stack software developer with expertise in front-end and back-end development , also experienced in UI/UX designing , making designing and development efficient and easy.

TECHNICAL SKILLS :

- Frontend - HTML , CSS ,JavaScript, ReactJS
- Backend - JavaScript , Node JS , Express.js
- Design - Figma , Adobe XD, UI Design
- Tech - Java , OOPS , SQL

TRAINING AND EXPERIENCE

Udemy Web Development BootCamp FULL STACK DEVELOPMENT

- Acquired a solid foundation in full-stack development, covering both front-end (HTML, CSS, JavaScript) and back-end (Node.js, Express) technologies.
- Gained proficiency in working with databases, including hands-on experience with MongoDB and other relevant database technologies.
- Completed practical projects as part of the bootcamp, demonstrating the ability to apply theoretical knowledge to real-world scenarios.

Adobe XD Mega course-User Experience Design UI/UX DESIGN

- Developed a deep understanding of user-centered design principles, focusing on creating products that meet users' needs and expectations.
- Acquired hands-on experience in creating wireframes and interactive prototypes to visualize and communicate design concepts effectively.
- Developed skills in crafting engaging and intuitive user interactions to enhance the overall user experience.

PROJECTS :

FLIP-KART CLONE - Ecommerce Website- Front End and Back End Development [\[LINK\]](#)

Tech Stack : React JS ,Node JS , MongoDB , Material UI

- Frontend Development using React JS and Material UI for creating interactive , intuitive and responsive user interface
- Backend implementation built using Node.js to handle operation and database implementation
- Database management utilized MongoDB as the database to store and manage product information and user data
- Product catalog , shopping cart functionality: Created a product catalog with features like search , adding products to cart , accessing the product details.

THE VOYAGE - Hotel Website- Front End and Back End Development

Tech Stack : HTML, CSS, JavaScript, MongoDB

- Frontend Development using HTML and CSS to ensure optimal user experience across various devices and screen sizes.
- Employed Node.js as the server-side scripting language to handle server-side logic and manage the back-end functionality.
- Integrated MongoDB as the database management system to store and retrieve hotel-related data efficiently.
- Implemented a user-friendly navigation system to easily browse different sections of the website, including hotel details, room availability, and booking options.

EDUCATION :

GLA UNIVERSITY

Bachelor of Technology in Computer Science, GLA University, Mathura

2020 - 2024
